

Layout of the Programme - ATBC Asia Pacific Conference 2019 - 12th September (Thursday)

Time	Location	Event							
07.30 - 08.30	Main Lobby	Registration							
08.30 - 09.30	Hope Auditorium	Plenary Talk 3 : Prof. Savitri Gunatilleke							
09.30 - 10.00	Main Corridor	Poster with Tea							
		Symposia Sessions 11-16							
			Courage	Inspiron	Nike AITC	Lecture Room	MOS	39 Insight	
			Bridging science and practice in reptile and amphibian conservation	Sustainable banking – considering biodiversity as a risk in lending	Plastics and Long-term Marine Pollution: Impacts and Interventions	Managing human animal conflict in the human dominated landscape	Mini Symposium: Diversity and Conservation of Insect Fauna in Agro-ecosystems	Species interaction networks and community ecology	
10.00 - 10.15			Origins of lizard diversity in Sri Lanka: Insights from the diminutive radiation of litter skinks <i>Lankascincus</i> (Reptilia, Scincidae)	Environmental and Social Risk Management and its impact on biodiversity conservation	Sustainable Waste Management: Impact and Interventions Addressing a National Cause	Human-elephant conflicts (HEC) patterns of the world's largest producer of Certified Sustainable Palm Oil (CSPO)	Insect diversity studies and conservation in agro-ecosystems of Sri Lanka: A brief review	Species' traits explain their position within interaction networks of montane avian mixed species flocks	
10.15 - 10.30							Efficiency of wild bees to enhance fruit quality of selected agricultural crops in Sri Lanka	Is the keystone role of figs maintained across a gradient of increasing human disturbance?	
10.30 - 10.45			Patterns of diversity in the Day Geckos (Reptilia: Gekkonidae: <i>Cnemaspis</i>) of Sri Lanka	Leveraging Sustainable Financing and CSR Contributions Towards Biodiversity Conservation: Global Trends and Evolving Context in Sri Lanka	Towards an Extended Producer Responsibility (EPR) Roadmap for Sri Lanka	An assessment of beehive fences in deterring crop raiding Elephants: A case study from Wasgamuwa, Sri Lanka	Spatial Distribution Patterns of Spiralling Whitefly, <i>Aleurodicus disperses</i> Russel (Hemiptera: Aleyrodidae) on Cassava (<i>Manihot esculenta</i>) Fields	Understanding leadership in mixed species bird flocks of southwest China using playback	
10.45 - 11.00			Hyper-hotspots within a biodiversity hotspot: Patterns of reptile endemism in Sri Lanka	Objectives of Sri Lanka Sustainable Banking Initiative (SLSBI), SBPs and comparison with CBSL's Roadmap	Particulate plastics associated toxic trace-element transport in the environment	Assessing public perceptions and solutions to human-monkey conflict from 50 years in Sri Lanka	The effect of flowering plants for enhancing natural enemy population in agricultural landscapes	Using social networks of bird communities to assess the conservation value of artificial wetlands: An example from Cyprus	
10.00 - 12.00			11.00 - 11.15						
			Colour polymorphism in Sri Lankan lizards: insights from the litter skink <i>Lankascincus fallax</i>	Appetite for financial institutions to consider biodiversity related risks in lending decision making	Informal to Formal: Safe and Responsible E-cycling	Analysis of mortality patterns and causes of mortality of Asian Elephants (<i>Elephas maximus maximus</i>) from 2009 to 2018 in the Anuradhapura, Puttulum, Mannar and Kurunegala districts of Sri Lanka	Landscape governance for biodiversity conservation An assessment of changing land use patterns upon Sri Lanka's biodiversity	Predation on Plasticine caterpillar and other models in a tropical rain forest	
			11.15 - 11.30						
			Effect of coastal developments on sea turtle conservation in Sri Lanka	Case studies on E&S Risk Management	The potential of vetiver grass (<i>Vetiveria zizanoides</i>) to act as primary purifier of polluted water; an answer to environmentally friendly low-cost sanitation	Systematic Review of Human-Elephant Conflict (HEC) mitigation methods in different landscape and human communities	A Review Of The Southern Border of Sinharaja - Contemporary needs against conservation	Floral traits explain pollinator visitation in Rhododendron species along an elevation gradient in the Sikkim, Himalaya	

	11.30 - 11.45			Abundance of venomous snakes of Sri Lanka in relation to climate and land cover	Biodiversity and business: environmentally sensitive industries and their impact on biodiversity		Status of Elephant Conservation Activities in Sri Lanka: Elephant Healthcare and Translocation	Understanding the landscape dynamics of Central India for landscape-level management planning	Ecosystem immunity; a climate smart solution to manage weeds in commercial tea
	11.45 - 12.00			Chytridiomycosis and the amphibians of Sri Lanka: providing a framework for future studies			Unravelling the complexities of human-leopard co-existence in unprotected landscapes	A review of legislation and policies that apply to transnational wildlife trade in Sri Lanka	Influence of species traits on important roles in mixed-species bird flocks from tropical India
	12.00 - 12.15						Habitat use by Asian Elephants: context matters		
12.00 - 13.30		Main Dinning Hall	Vegan Lunch						
	12.30 - 13.30	Café by the		Lunch time talk -International Humane Society					
	12.30 - 13.30	Inspiron		UNDP 6th National Report					
13.30 -14.30		Courage	Inauguration – Ecological Association of Sri Lanka						
14.30-15.30		Inspiron	AGM – ATBC AP Chapter Meeting						
15.30-16.00		Main Corridor	Poster with Tea						
16.00-17.00		Hope Auditorium	Plenary Talk 4 : Prof. Vojtec Novotney						
17.00-18.00		Courage	Speed Talks						
		Inspiron	Seminar - Dr. Alice Hughes						
18.00-20.00		Hope Auditorium	Anslem De Silva felicitation
